

Double and Trouble?

This course will focus on several aspects of doubles, such as when and how to respond when your partner wishes you to take it out, and when and how to penalize the opponents and double the score!

We will also examine the Negative Double and what that is all about. Many players believe the negative double is essential in today's competitive environment.

The Redouble will also be a small part of our exploration.

Come explore an essential element of the game, which can have so many meanings! We will play lots of hands to illustrate the concepts. We also laugh and have fun playing what is the best game ever!
